

OPERATING INSTRUCTIONS – CHAFING DISHES

The rental of chafing dishes includes the following:

- 1 Stand
- 1 Water Pan
- Either 1 Full Food Pan or 2 Half-Pans
- 1 Lid
- 2 Cans of Sterno Fuel

Instructions:

1. Remove lid from Sterno can and place into the sterno holder, then light.
DO NOT use anything other than sterno fuel in the burner.
2. Add small amount (about 1 inch) of **HOT** water into the water pan and then place on top of stand. Continue to fill the pan with another inch of **HOT** water. Check water level regularly, while using, to ensure there is sufficient water.
DO NOT USE WITHOUT WATER. THE WATER PAN MUST BE FILLED WITH HOT WATER AT ALL TIMES WHILE IN USE.
3. Insert the second, food pan containing cooked food over the water and cover with lid. Chafers are not to be used for cooking food, they are meant for keeping food warm/hot.

DO NOT leave open flame unattended.

The lid should remain on the chafer when food is not being served.

CAUTION WHEN OPENING LID: When opening the lid, do so carefully so that rising steam does not burn your face or hands.

If you hear a sizzling sound, add water to the pan.

Scrape and rinse food pans prior to returning the chafers. **DO NOT** place dirty pans back into the chafer box.
